Dangers of Smoking Cigarettes

Each year more than 114,000 people in the UK die from smoking related illnesses.

It kills five times more Britons than road accidents, overdoses, murder, suicide and AIDS combined ... victims die more than twenty years before the life expectancy of non-smokers.

Countrywide Bans

- Pubs
- Businesses
- Restaurants
- Cinemas
- Public transport

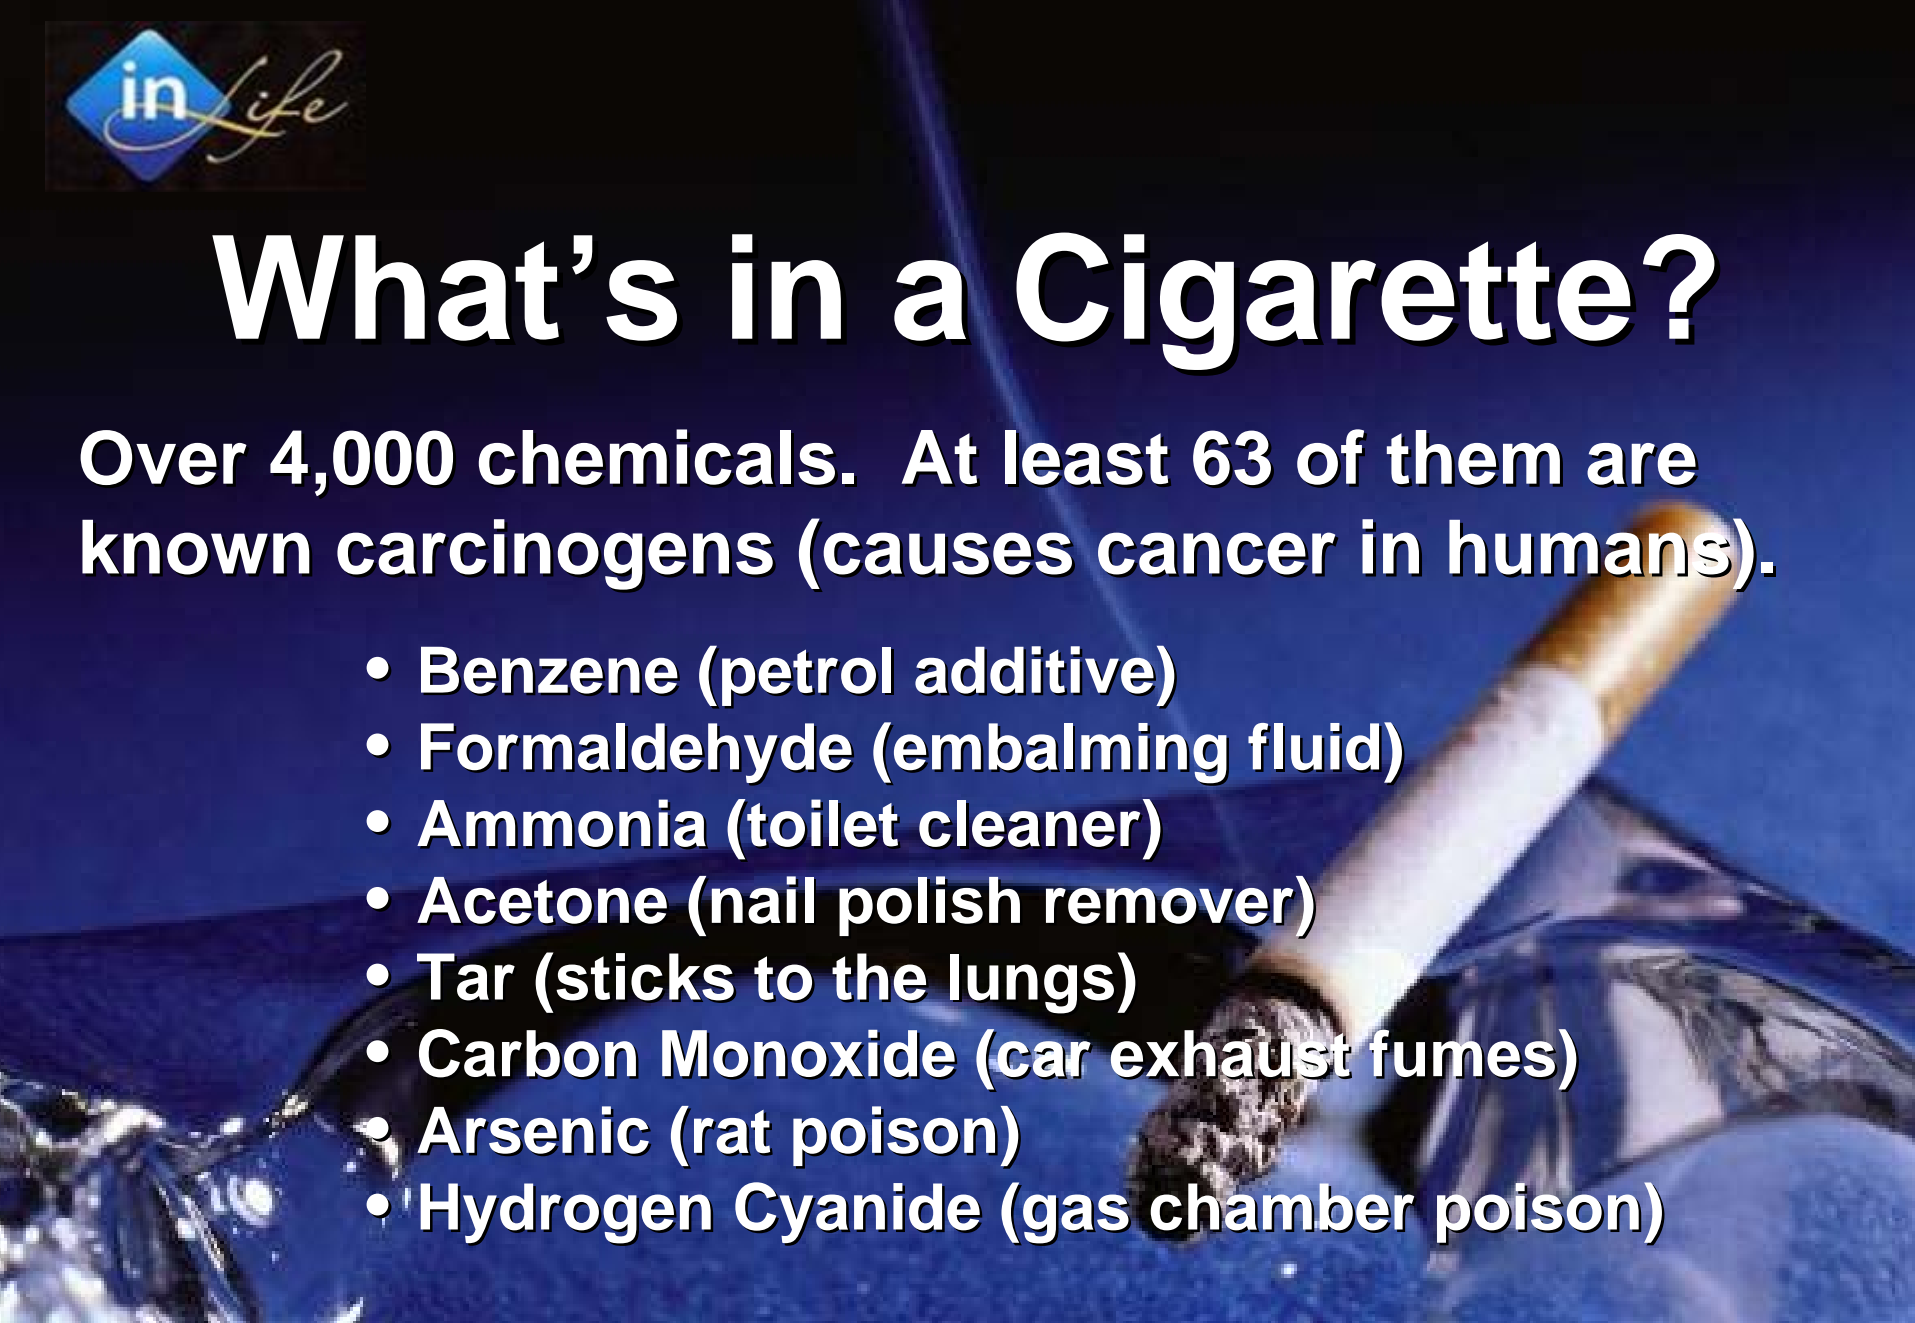

What's in a Cigarette?

Over 4,000 chemicals. At least 63 of them are known carcinogens (causes cancer in humans).

- Benzene (petrol additive)
- Formaldehyde (embalming fluid)
- Ammonia (toilet cleaner)
- Acetone (nail polish remover)
- Tar (sticks to the lungs)
- Carbon Monoxide (car exhaust fumes)
- Arsenic (rat poison)
- Hydrogen Cyanide (gas chamber poison)

Think of the Possibilities

What if I could take your pack of cigarettes, remove the 4000+ chemicals and over 63 carcinogens and give them back to you?

What if you could have some of your smoking freedoms back without effecting others rights?

What if you could cut your cost of smoking in half?

A Logical Smoking Alternative

- Real Smoking Sensation
- No Known Carcinogens
- Tobacco, Menthol & Robust
- Varying Nicotine Levels
(To determine the level that is right for you)
